

COTE AUTO REPAIR INC.

493 Access Highway

Limestone, ME 04750

(207) 325-4757

Cote Auto Repair has been a family owned operation since 1983. Owner Jim Cote along with his son Tyler Cote operate 6 days a week from 7AM to 5:30 PM. Jim is the early bird and Tyler is the night hawk of the operation, working much later than 5:30 many nights. Cote's offers full automotive repairs, including services such as motor vehicle and truck inspections, as well as a 24 hour wrecker service in the Limestone area.

Cote Auto would like to introduce a Computerized Alignment service, which is one of a kind in the surrounding areas. This service can offer alignments ranging from small cars to ton and 1/2 trucks. Computerized alignment is pre-loaded with every vehicles's alignment specifications. Once the vehicle type is determined, the high tech and precise measuring begins. Computerized alignments will help you have longer lasting tires, a smoother drive, and keeps your wheels pointed in the right direction.

Jim doesn't just settle with fixing vehicles, he also buys and sells them. Stop in and let his sales team know what you are interested in and they will help you find the right vehicle. Whether it is an SUV to a four door car Sedan, Cote's auto is willing to travel to auctions to find the one for you. Several banks are available for in house financing. Don't hesitate to call or email Office Manager April King at Coteautosale@maine.rr.com if you need assistance.

Jim has served many years on the Board of Chamber of Commerce and Limestone Development Foundation. Currently he is a Limestone Water Company Board of Trustees and is a Loring Development Authority Board member.

The Limestone Chamber of Commerce thanks Jim Cote, owner of Cote Auto Repair Inc. for his annual business membership.
